

My Taiwan Experience

Dylan Jones

My Pre-Taiwan Goals

- Wanted to practice/improve my Chinese skills!
- First Chinese teacher I had in high school was Taiwanese and she loved her culture!
- Learn more about Taiwanese culture and their place in the world

New Experiences

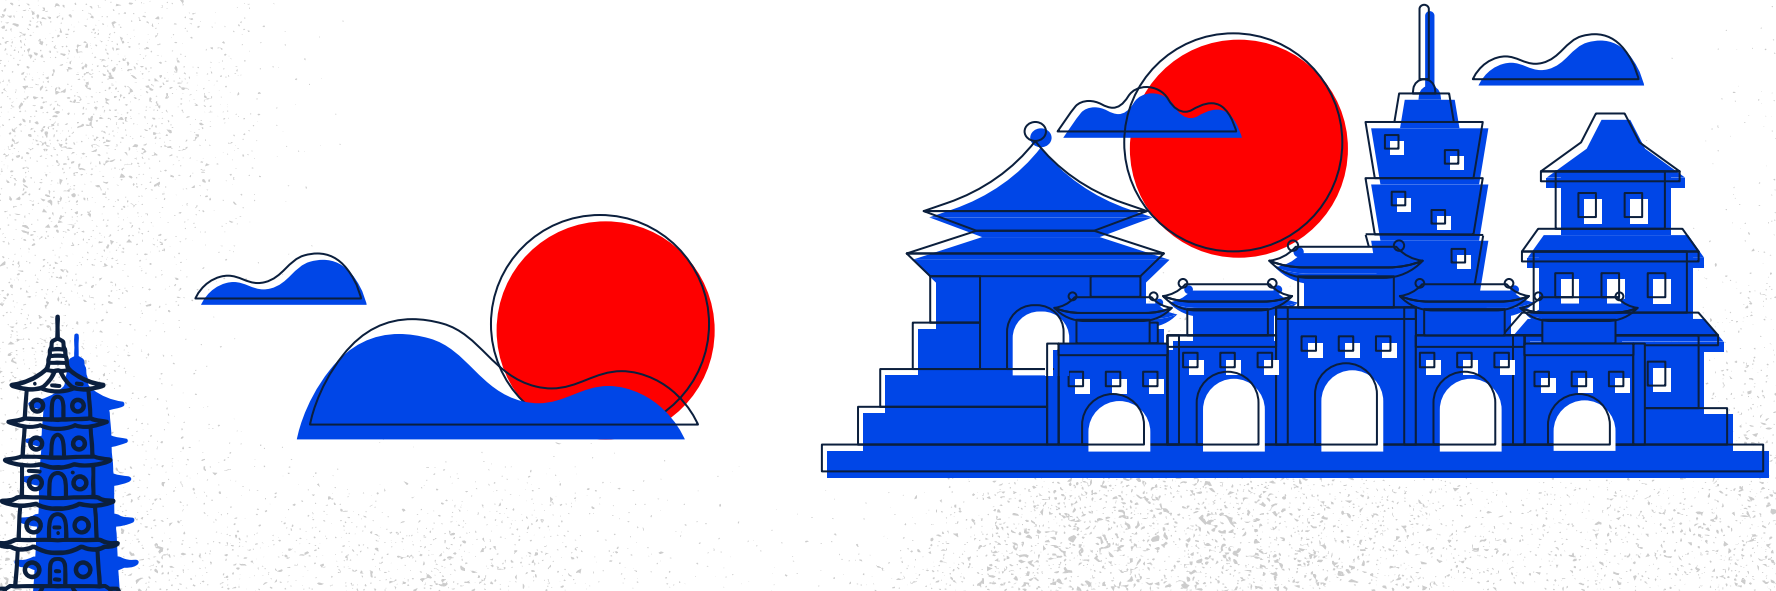

- Taiwan is a very enriching country
 - Culture
 - Religion
 - Education
- Speaking with the locals have been amazing!
- Teaching the language is even worse

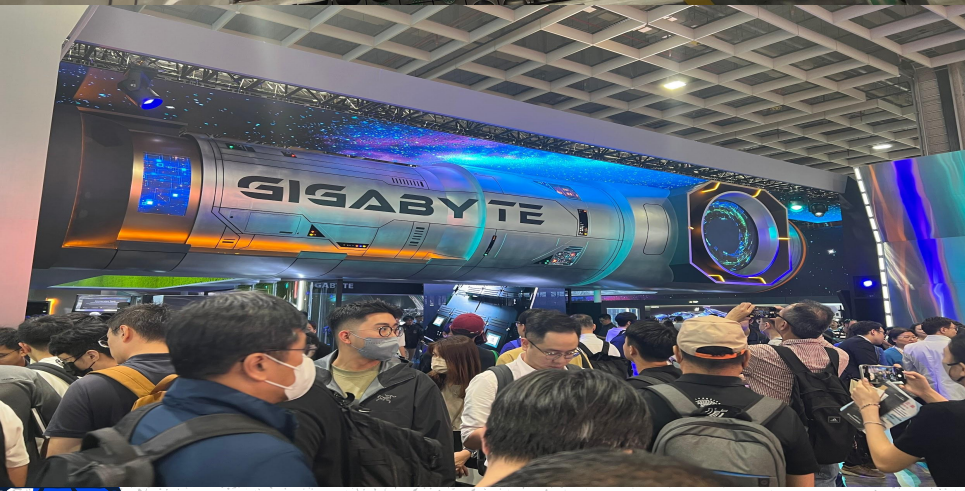

Interconnection between Business and Culture

Taiwan is a part of one of the fastest growing industries, with insane potentials for marketing and profit

However, Taiwan is not known by the consumers of the tech industry for their importance due to how Taiwan incorporates their culture and religion into their business practices.

Conclusion

**Interconnection
of Business
and culture and
religion runs
deep in Taiwan**

**The main religions
focus on building
around the
community**

**Truly an
enlightening
experience**

谢谢 !
